

FRIDAY JUNE 16, 1882.

The Distribution of Property.

The rapid distribution of property under the American system is strikingly illustrated by the experience of California. Thirty years ago a few individuals owned vast tracts of land, grants of more than 100,000 acres each having been repeatedly made. John A. Sutter, who died a pensioner on the Government, once owned about 50,000 acres including the site of the City of Sacramento. With a few exceptions the proprietors of these great estates became poor. In 1850 there were only 872 farms in California; by the last census there were 35,934. "Perhaps San Francisco," says the Bulletin of that city, "is a better illustration of the social force to which reference is made than the State at large. This county contains 27,000 acres. Of these 3,277.54 are Government reservations. This left a total area of 23,722 acres. Of these 11,073.56 acres, or nearly one-half, were granted by the Mexican Government to thirteen individuals. The remaining 12,693.44 belonged to the pueblo in trust for its inhabitants. Nearly the whole of this area was grabbed by a score or so of squatters masquerading as the inhabitants of San Francisco. The whole peninsula may be said to have been owned once by less than forty persons. But there are now not less than 40,600 property-owners who pay taxes. While this tremendous social force is in operation we need have no fears for the future of our Government. The efficient agents of the system are the distribution which takes place at death, and taxes. No doubt in some of the earlier cases improvidence and inability to comprehend the new social phenomena by which they were surrounded accelerated distribution. But it would have come sooner or later, even if the highest business qualities had been arrayed against it."

The Clippers and the Railroads.

A New York dispatch says the attempt of the Pacific Railroads to cripple the clipper lines by forcing certain merchants to make special contracts, is likely to fail, as several shippers express a determination to stand by the clippers who, in return, are willing to do better by shippers than heretofore. Agents of the clipper lines point to the fact that while the railroads are endeavoring to make shippers believe that it is to their interest to send all of their goods overland, the railroad themselves are sending large quantities of iron and lumber by clipper via Cape Horn, and clipper agents ask, if it is cheaper for the railroads to ship via Cape Horn, why not for the merchant? The railroads have heretofore been large shippers of rails via Cape Horn, and still have contracts for the same.

The Railroads and State Land Taxes.

The Pacific Railroads are making an effort to prevent the passage in the House of a bill which passed the Senate on Friday, compelling the payment of State Taxes on lands granted to the roads. They have heretofore only obtained patents for their lands when the bargain is made to sell them to settlers, thus avoiding the payment of millions of dollars in taxes. The bill compels the payment of taxes on all lands granted them, whether there is a prospect of a sale or not. We hope the House will promptly pass the bill. It is an outrage to permit a railroad company to go scot free, while the poor man with his little patch which adjoins, is compelled to contribute his quota toward Government expenses.

The Black Man's Ballot in South Carolina.

The evidence in the case of Smalls, colored Republican, against Tillman, white Democrat, now holding a seat in the House of Representatives from the Fifth District of South Carolina, discloses a remarkable condition of politics in that State. There were many cases of colored men driven from the polls, red shirt clubs hunting them, a cannon loaded with a half of buckshot was turned on them at the polling place, and they were driven away. The question of seating Smalls and ousting Tillman only depends upon the Republicans getting a quorum, which is now difficult, as many members are away "repairing fences."

A Congressional Board, appointed for the purpose, has ascertained that the number of white people killed by the Apaches in their recent uprising is forty two, and nine wounded. The loss of property by their depredations amounts to \$30,250.

It is thought that Salt Lake City will have through connection with Denver by January 1, 1883, via the Denver & Rio Grande Western Railway.

WINDOM FOR 1884.

Senator Windom's boom for the Republican nomination for President in 1884 receives a little aid from a Cleveland dispatch to the St. Paul Pioneer-Press. A prominent Ohio politician is reported as saying that the next candidate of the Republican party should be a man who was a member of Garfield's Cabinet. He continued: "All the Republicans of Ohio now live for is to vindicate the memory of their beloved leader, General Garfield. I consider William Windom by far the most available man in the United States. He comes from the great West, has the broad Western ideas, he is safe and judicious in every way, and is not unknown to the country at large. He is identical with Garfield. They were always good friends, and he was a member of the Cabinet. I think Ohio would gladly support him, and that he ought to have the backing of the great West."

A New Railroad.

Tuesday morning's Salt Lake Tribune contains the following important announcement:

Articles of incorporation were filed yesterday with the Auditor of the Territory for a new railroad company, to be called the California Short Line. The company's object is to run a line of railroad from Salina, on the Sevier river north, via Manti, Ephraim and Moroni to Draper, connecting with the San Pete Valley Railway, and from Nephi to Springville, connecting at that point with the Denver & Rio Grande Railway. This would give a continuous line of railway from Salina to Salt Lake. The names of the incorporators are W. S. McCornick, A. Hanauer, George M. Scott, Josiah Barnett, Eli H. Murray, Robert Harkness, J. E. Bamberger, Henry Waggoner, George A. Lowe, W. W. Chisholm, John T. Lynch, A. G. Campbell, R. Mackintosh, George Collins, N. Grossbeck, Simon Bamberger and F. K. Morris.

The first meeting of the new company was held on the 10th instant, at the office of Bennett, Harkness and Kirkpatrick, when the following gentlemen were elected Directors: A. G. Campbell, Eli H. Murray, George A. Lowe, John T. Lynch, W. S. McCornick, W. W. Chisholm and J. E. Bamberger. A meeting of Directors was then held, resulting in the election of the following gentlemen as officers of the company: Governor Eli H. Murray, President; Hon. A. G. Campbell, Vice President; W. S. McCornick, Treasurer; Fritz K. Morris, Secretary.

The line has every promise of a great success, as the grain, mineral, timber and stock raising interests of the southern counties have long demanded the facilities of a railroad. We understand the company have in view an ultimate extension northwesterly through the Tintic mining district, then westerly through the mining districts of Nevada to Eureka, and thence to California.

A Washington dispatch of the 13th says "there is quite a story behind the nomination of Rollin M. Daggett to succeed Comly as Minister to the Sandwich Islands, which was sent to the Senate today. Comly claimed that with his paper, the Ohio State Journal, he made the nomination of Hayes as President at the Cincinnati Convention possible. He struck very high for an office, but Hayes made him take the Ministership to the Hawaiian Islands. When Garfield was elected he sent assurances to Comly that he would be allowed to remain there. When Arthur succeeded, Comly asked a renewal of Garfield's assurance. He also got his Ohio friends to send an appeal to Arthur, asking that he be allowed to retain his position. Senator Jones wanted Daggett, and so told Arthur. The fight for the place has been kept up at a lively rate, Jones finally winning. The President decided yesterday that Daggett should succeed Comly."

Following is the last monthly Treasury statement of bonds issued to the Pacific railway companies, interest payable by the United States: Principal outstanding, \$64,623,512; interest accrued and not yet paid, \$1,615,588; interest paid by the United States, \$53,405,977; interest repaid by transportation service, \$15,112,848; by cash payments, 5 3/4 cent net earnings, \$655,199; balance of interest paid by the United States, \$37,637,931. The cash payments by the Central Pacific amount to \$648,272, and the principal outstanding is \$25,895,120, with \$637,128 interest accrued and not yet paid. The interest rate is 6 3/4 cent, payable in June and July.

Utah is to be represented at the great mining exposition which will be held at Denver, Colorado, next August. Governor Murray has, in response to the request of the Governor of Colorado, appointed Professor Clayton as Utah's Commissioner to the exposition, who has selected A. Zoehandelaar as his assistant.

L. H. McIntosh, of Colusa County, Cal., has purchased the famous Parker sheep range in Mountain Meadows, near Susanville. He also bought a band of 5,000 head of sheep on the range, and will in the future engage extensively in stock-raising and wool growing.

Maced has a fat boy who is 15 years old and kicks the beam at 285 pounds. The town has hopes of his reaching 300.

A Silver Plant in the Truckee.

[S. F. Chronicle, June 14.]

Recently while a wagon was crossing a tributary of the Truckee river, the bridge gave way, and the vehicle was precipitated into the water. The driver and the horses were saved, but the wagon and contents, including a lot of silverware, valued at \$800, en route from the Baldwin Hotel of this city to the Tallac House on Lake Tahoe, Nev., were lost in the depths of the restless river. The silver service was intended for the Tallac, and was owned by E. J. Baldwin.

Rollin M. Daggett, of Nevada, is to succeed Comly as Minister to Hawaii. The change, no doubt, is for political reasons, but all the same it is a good one. Comly has grossly betrayed the interests of the United States, and has played directly into the hands of the sugar monopoly, which is robbing the Treasury of millions annually. He has purposely closed his eyes to the degrading effects of the contract-labor system on the islands, and has done all in his power to perpetuate a system as brutalizing as African slavery in its worst aspects. When Comly returns to Ohio we trust the people of that free State will call him to an account for his despicable course.—S. F. Chronicle.

These jobs are from the little Virginia Footlight:

Daggett will accept the Hawaiian mission. To Let—The Republican nomination for Governor of Nevada.

Some political nosing around, in the interest of Marye for Governor, is now going on. Some old political hacks have the job in hand.

A Denver paper professes to think it marvelous that a man whose brains were knocked out is still living. If he were out this way he would not only be living, but he would be holding some important office.

The Dublin assassins have not yet been run to the ground. They have gone to join the author of the Morey letter.

Advertising Medium.

The advertising columns of the JOURNAL afford an excellent opportunity to our readers to study out where purchases of all kinds can be made on the most advantageous terms. All classes of goods can there be found advertised from a suit of clothes or nice silk dress to the daintiest ornament in the jewelry line. The JOURNAL reaches nearly every family as well as business house in the county, and, therefore, advertisers seek its columns that the public may know what they have for sale

Steady for Office

The Carson Appeal, of Thursday
morning, contains this about Gen. Kit-
trel:General John R. Kittrell was in the
city yesterday, shaking hands with
every one, Republicans and Democrats
alike. He says that he is willing to ac-
cept a good office at the hands of the
people this Fall, and will even permit
Republicans to vote for him. There is
much modesty in the nature of the Gen-
eral.

enliven Commencement Day in the in-
tervals between essays and poems. We
acknowledge the receipt of a card of
invitation. The school will reopen on
August 24.

A Big Flood.

A correspondent of the Grantsville
Bonanza, writing from Downsville,
June 7, says:And now I have some news, and good
news, too. The largest ore deposit
ever found here was struck yesterday.
They have got a chamber of ore that is
wonderful in its size and richness; they
have got into it 250 feet, and still no
end to it. Impartial persons who have
seen the chamber to-day, say there is
more ore in sight there now than has
ever been worked in Downsville. The
chamber extends below the water level
—how far is not yet known, but we feel
just as confident that as good ore, and
perhaps larger bodies, will be found at
greater depth.

Kittrell For Governor.

The Carson Index has this: "Since it
has become fashionable to tender ad-
vice to the Democracy, it will be in or-
der to suggest the name of John R. Kit-
trel as the standard bearer of the un-
terrified legions of unreconstructed
Bourbonism in Nevada. The General's
name will be the synonym for that pure,
unadulterated Americanism which is the
constant boast of the leaders of that
effete party. That General Kittrell has
not been brought to the front by the
Virginia Chronicle for a joint with Matt
Canavan for the first place in the party
esteem, is thought by outsiders to be an
omission which should be speedily re-
ctified. Inasmuch as the Democracy is
to sink beneath the waves this Fall, let
a go down in a blaze of glory with Gen-
eral Kittrell at the helm. Such a de-
mise will at least be respectable."

Breeder and Sportsman.

Mr. Jos. Cairn Simpson has deter-
mined to publish in San Francisco a
weekly journal to advance the breeding
interest of the Pacific Coast, and to ele-
vate and popularize out-door sports.
The intention is to make it a first-class
paper in every respect. To accomplish
this every effort will be made, and with
the utmost confidence in fulfilling the
promise. The farm, especially the
breeding of domestic animals, will have
the first place. The breeding, rearing
and education of all kinds of horses,
will, necessarily, have the foremost
rank, though all kinds of live stock
will receive due attention. The turf
and track will be awarded the promi-
nence they are entitled to from the mag-
nitude of depending interests, and care
taken that these, the most popular of
sports, be presented fully. Shooting,
fishing, coursing, boating, all, in fact,
of the recognized, legitimate pastimes
of the American people will have a
place. In-door sports will not be over-
looked, and billiards, chess, draughts,
whist, etc., incorporated in order to
make the paper complete. The only
political questions permitted, editorially
or in correspondence, will be those
which have a direct bearing on the in-
terests represented. Every department
will be under the charge of men who are
thoroughly versed in their respective
specialties, and an experience of nearly
a quarter of a century gives the editor
confidence in his ability to perform the
services satisfactorily to a majority of
the readers. Arrangements have been
made to secure an efficient corps of cor-
respondents, and from all sections we
have assurances of assistance in this es-
sential feature. The Pacific Coast is an
Empire in itself. For the breeding of
fine stock of every description it has ad-
vantages which cannot be excelled. To
place these advantages before the peo-
ple of the whole country, to furnish in-
formation on subjects which come
within the sphere of the paper; to present
a record of passing events; to elevate
and forward all sports and pastimes
which are worthy of support, and to
blend amusement and instruction are
the objects in view. The form will be
quarto with sixteen pages of reading
matter. The first number will be pub-
lished on the first of July next. The
subscription price \$5 per year. We
trust our farmers will subscribe for the
"Breeder and Sportsman."

Gillespie-Finlayson.

The home of Mrs. Finlayson was
crowded with friends on Wednesday
evening, the occasion being the mar-
riage of Miss Christina Finlayson to Mr.
M. M. Gillespie of Bodie. Every room
in the house was beautifully decorated
with flowers and climbing vines, a
large marriage bell composed of white
flowers being among the decoration.
The bride wore a costume of cream
colored mull, trimmed with cream satin
and Spanish lace, a satin bodice, and
cream roses, hair dressed low with a
spray of star-like Jassimines, white kid
gloves and slippers. Miss Bessie Fin-
layson was bridesmaid and was dressed
similar to the bride. Mr. Gillespie and
Mr. D. C. Martin (the latter acting as
best man) were dressed in full even-
ing dress. The ceremony was performed
by the Rev. A. B. Palmer in a very im-
pressive manner; after which congrat-
ulations were extended, and the band
serenaded the couple. The following
is a partial list of the presents: A. Gil-
lespie, silver pitcher; Mr. and Mrs. F.
McRae, silver cake basket, Donald Mc-
Kay, China tea set; Dave Martin, silver
berry dish; Mr. and Mrs. Phillips, card
receiver; G. W. Humphrey, butter dish;
Mrs. J. Warrell, one-half dozen salt
dishes; Mrs. B. A. Davis, cake basket;
W. Goeggel, pickle cactor, Mr. and Mrs.
Nate Roff, pie knife; Messrs. Hastings
and Miller, set of napkin rings; Mr. and
Mrs. Purdie, tea spoons; Mrs. B. B.
Norton, silver tea spoon holder; W. L.
Knox, butter knife, sugar and pickle
forks; Mrs. J. J. Grant, silver fruit
knife; Mrs. Thrall, toilet set; W. Nim-
mock, butter knife; Mr. and Mrs. A. B.
Palmer, berry spoon and vases; Mrs.
Caldwell, water pitcher; Mrs. Miller,
bed spread; Mrs. McIntosh, tea set;
Mrs. Blanche Taylor, bed spread; Miss
De La Martyr, dressing glass; Mr. and
Mrs. W. Webster, doz. silver knives;
R. Gillespie, one-half doz. silver berry
spoons; Mrs. Watson, lace tie. Mr. Gil-
lespie gave his bride an elegant watch
and chain as a wedding present.

Antelope Strike.

A. J. Clark came in from the Ant-
elope mine Wednesday, and brought in a
number of samples of the ore recently
encountered on the 250 foot level of that
mine. At the time Mr. Clark left the
mine the ore body had been penetrated
with a cross-cut 15 feet. Assays taken
from all parts of the ore body thus far
developed averages over \$350 per ton
in free gold, with a considerable per-
centage of silver. Contrary to expecta-
tions, or rather prognostications, the
present ore body mills perfectly free.
The mill is kept constantly running.

For Callahan's Niece.

The Enterprise of Thursday records
the progress of the "Silver Knapsack
Fund" as follows:

There was yesterday dropped into
Van Dusen's knapsack (which has been
hung up in the Postoffice) silver coins
to the amount of \$18 05. Many who
saw the apparatus were probably igno-
rant of the object of placing it there;
perhaps did not know what it was. Be-
sides what was dropped into the knapsack,
J. A. Conbois left at the Enterprise
counting-room \$10 in gold for the girl,
\$10 for Bennett's relatives and \$10 for
Van Dusen, the man who packed the
knapsack. He said he desired to do
something for all hands.

Austin's Bullion Yield.

Since the first discovery of the mines
of Austin Mining District in 1862, down
to the present time, the aggregate bul-
lion yield has amounted to fully \$20,-
000,000. The vast majority of this came
from the mines on Lander Hill, within
the borders of Austin. The Manhattan
mill is busily grinding out more bullion,
and produces about \$1,000,000 yearly.

Mr. Wm. Timson, County Auditor of
White Pine, came down from Virginia
last evening, and will leave for home
this morning. Mr. Timson is mentioned
in connection with the Republican nom-
ination for Controller. He might ac-
cept the nomination for Secretary of
State.

Miss Sadie Sykes, who has been visit-
ing Mrs. John Wilson, has returned to
Sacramento.

Minister Daggett will go to Washing-
ton in a few days for instructions.

Supt. Dawson has taken up his resi-
dence at the Asylum.

Remember to take a bath at Pee-
ner's to-day. Hot and cold water, and
a shower, clean towels, etc.

Lawn fountains, mowers and rakes,
also the Jewel Carpet Sweeper, and all
the latest novelties at Knowles & Bain-
bridge's.

Tom Barnett intends to give the peo-
ple a benefit, no more nor less than a
grand clearance sale of his immense
stock of boots and shoes, furnishing
goods, etc. The sale will commence on
the 4th of June and continue ninety
days.

Compound sage powder for consti-
pation for sale by Osburn & Shoema-
ker.

Mothers! Mothers!! Mothers!!!
Are you disturbed at night and broken of your
rest by a sick child suffering and crying with the
excruciating pain of cutting teeth? If so, go at
once and get a bottle of **MRS. WINSLOW'S**
SOOTHING SYRUP. It will relieve the little
sufferer at once—depend upon it: there is no
mistake about it. There is not a mother on earth
who has ever used it who will not tell you at
once that it will regulate the bowels, and give
rest to the mother, and relief and health to the
child, operating like magic. It is perfectly safe
to use in all cases, and pleasant to the taste, and
is the prescription of one of the oldest and best
female physicians and nurses in the United
States. Sold everywhere. 25 cents a bottle.

Treats All Chronic and Special Diseases.

YOUNG

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty, who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, the color will be a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration to the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, \$5. Call or address,

AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, AND CONSUMPTION.

The few compositions, which have won the confidence of mankind and become household words, among not only our, but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed three dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Richness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not keep it if you for the protection it affords by its timely use in sudden attacks.
